

# Home Safety Checklist

Keeping kids safe, room by room

#### **BATHROOM**

#### **Water Safety**

- Watch children when they are in and around water, without being distracted. Remember to keep young children within arm's reach of an adult.
- ☐ Check the water temperature with your wrist or elbow before giving your baby a bath.

#### **Medicine Safety**

- Keep all medicine and vitamins out of children's reach and sight, even medicine you take every day.
- ☐ Write clear instructions for other caregivers about what medicine to give children, when to give it and how much to give.

#### **BEDROOM**

## Sleep Safety

- Make sure babies sleep on their backs and in their own crib. Room sharing is a safer option than having your baby sleep in bed with you.
- Choose a firm mattress and a fitted crib sheet for your baby's crib. Keep cribs clear of toys and soft bedding.

### STAIRS + WINDOWS

#### **Preventing Falls**

- ☐ Use approved safety gates at the top and bottom of stairs, and attach them to the wall, if possible.
- ☐ Properly install window guards or stops to help prevent falls from windows.

## **KITCHEN** Fire and Carbon Monoxide Safety Make sure there is a working smoke alarm and carbon monoxide alarm on every level of your home. Test the batteries every month. ☐ Create and practice a home fire escape plan with your family. Know two ways out of every room in case of a fire. **Preventing Burns** Cook on the back burners of the stove and keep pot handles turned away from the edge. Keep hot foods and liquids away from the edge of counters and tables. $\square$ Don't hold a child while cooking on the stove. It's better to put your child in a high chair where you can still see them. **Poison Prevention** Store all household cleaning products and chemicals in their original containers, out of children's reach and sight. Save the toll-free Poison Help number into your phone in case of emergency: 1-800-222-1222. **LIVING ROOM Preventing TV and Furniture Tip-overs** □ Mount flat-panel TVs to the wall and place large, box-style TVs on a low, stable piece of furniture. Use brackets, braces or wall straps to secure unstable or top-heavy furniture to the wall **Toy Safety** When choosing a toy or game, read the instructions and warning labels. Make sure the toy is appropriate for your child's age and development. Sign up for product recalls at http://www.safekids.org/product-recalls.

## **Preventing Choking and Strangulation**

- Keep small objects out of children's reach and sight. Look for and remove small items that are at your child's eye level.
- Keep cords and strings out of children's reach, including those attached to window blinds.
