Poster Symposium Presentations

Listed by poster number

- 1 Impact of GLP-1 Receptor Agonist Therapy on Liver Fibrosis Severity in Metabolic Dysfunction-Associated Steatotic Liver Disease
Anderson Huang
- 2 Perceived Impact of As Needed vs. Routine Intravenous Fluids for Ambulatory GI Endoscopies Among Healthcare Professionals Following Hurricane Helene
Anderson Huang
- 3 Perioperative outcomes of as needed vs. routine intravenous fluids for patients receiving ambulatory GI endoscopies following Hurricane Helene
Asha Dash
- 4 Racial Differences in Prevalence, Screening, and Complications of Osteoporosis in Patients with Inflammatory Bowel Disease
Benjamin Hoffman
- 5 Menorrhagia Secondary to Uterovaginal Varices
Benjamin Hoffman
- 6 Acute Liver Failure Due to Metastatic Uveal Melanoma
Benjamin Hoffman
- 7 Novel Endoscopic Approach of Transluminal Drainage for Deep Pelvic Collections in Acute Necrotizing Pancreatitis
Benjamin Hoffman
- 8 Housing Status and Its Association with Complications and Hospital Outcomes in Alcohol-Associated Liver Disease
Ki Jung Lee
- 9 Enhancing Internal Medicine Residents' Competence in Inflammatory Bowel Disease Management Through an Exacerbation Triage Algorithm and Think-Pair-Share Educational Approach
Ki Jung Lee
- 10 Colonoscopy with Polypectomy in Patients with Cirrhosis: A Retrospective Review of Complications
Brian Yan
- 11 Adverse Outcomes in Patients with Inflammatory Bowel Disease on GLP-1 Receptor Agonist Therapy
Jonathan Weng

Poster Symposium Presentations

Listed by poster number

- 12 Long-Duration Fluconazole Therapy May be Associated with Faster Time-to-Remission in Patients with Active Inflammatory Bowel Disease (IBD)
Sarah Chen
- 13 Non-adenosine composition of CDK13-mutant melanoma poly(A) tails in zebrafish and humans
Calvin Ludwig
- 14 Fabrication of an Endothelial Progenitor Cell-based 3D Vascular Graft for Cardiovascular Drug Testing
Tala Abu Samaan
- 15 Modelling Diabetic Vasculopathy Through 3D Vascular Grafts from Diabetic Vascular and Progenitor Cells
Tala Abu Samaan
- 16 Trends in Incidence and Outcomes of Surgical Conversion for Transcatheter Aortic Valve Replacement in the United States
Daniel McGrath
- 17 Obesity and echocardiographic predictors of sudden cardiac death
Divya Velury
- 18 Commercial Automated LVEF Software for Patients with Hypertrophic Cardiomyopathy
John Morrissey
- 19 Clinical Comorbidities and Two-Dimensional Echocardiographic Features Associated with Cardiac Amyloid Subtypes
John Morrissey
- 20 Proper Utilization of National Inpatient Database to Assess the Safety of In-Patient Catheter Ablation for Atrial Fibrillation in the US: Correcting the Mistakes of the Past
Kathleen Oakes
- 21 Stressed Out: Takotsubo Cardiomyopathy as an Alternative Cause of Wellens T Waves
Kathleen Oakes
- 22 "EKG of the Day": A Novel Teaching Approach for the Third Year Medicine Clerkship
Kathleen Oakes
- 23 Contemporary Trends in Utilization and Safety of Catheter Ablation for Atrial Fibrillation in Patients with Heart Failure
Lauren Ehrhardt-Humbert

Poster Symposium Presentations

Listed by poster number

- 24 Fingerstick of Death — Severe Insulin Resistance, Septic Shock, and Death After Brentuximab Vedotin for Hodgkin lymphoma
Lauren Ehrhardt-Humbert
- 25 Accuracy and Variability in Echocardiographic Measurements of Left Ventricular Mass
Mohamad Wahoud
- 26 Optimal LDL targets for overall survival in the heart transplant population
Namrata Gadela
- 27 Evaluating The Effect Of Respiratory And Hemodynamic Support During Critical Illness On Cognitive Function After Recovery
Meghan Hawthorne
- 28 Angry Purkinje Syndrome: Cases Requiring a Unique Treatment Approach
Abdullah Khalid
- 29 Modular Anti-Tachycardia Pacing: A Literature Review of Leadless and Subcutaneous Device Integration
Abdullah Khalid
- 30 Spinal Gout: A Rare Cause of Back Pain Diagnosed with Dual-Energy CT
Dina Murad
- 31 Cutaneous T-cell Lymphoma in Ulcerative Colitis Patient: A Novel Association with Vedolizumab Therapy
Dina Murad
- 32 The path of least resistance: a case of a clinically stable alveolopleural fistula with continuous air leak
Jaclyn Arvedon
- 33 A Diagnostic Dilemma in Hypercalcemia: Vitamin D Intoxication vs Granulomatous Disease
Nada Hajjaj
- 34 Meningitis due to an Anterior Sacral Meningocele Communicating with a Rectal Abscess
Nathan Sacks
- 35 Unmasking a Forgotten Drug Interaction: Butalbital and Warfarin
Saurav Kini
- 36 Primary Disseminated Varicella-Zoster Virus Infection with Hepatitis and Meningoencephalitis in an Immunocompetent Adult
Saurav Kini

Poster Symposium Presentations

Listed by poster number

- 37 High Value Care: A Comprehensive Curriculum to Build Awareness and Change Practice
Alex Sugerman
- 38 Discharge Summaries: Setting the Standard
Catherine Ho
- 39 Mind the Methadone: Keeping Patients on Course, Not on Edge
Sravva Shankara
- 40 EPIC Patient Portal Functionality: An equity analysis in vulnerable cancer patients
Yenong Cao
- 41 Temporal Pattern of Emotions and Cognitive Load in Internal Medicine Residents through an Intern Rapid Response Simulation Curriculum
Katherine Goodspeed and Jordan Santiago
- 42 Curriculum Development for GI Rotation
Bowei Deng
- 43 Arrhythmic Outcomes Associated With History of Non-Sustained Ventricular Tachycardia in Primary Prevention ICD Recipients
Ido Goldenberg
- 44 Additional Cost of Training Physicians: Results from the 2023 APDIM Program Director Survey
Kathleen Finn
- 45 Chronic Disseminated Intravascular Coagulation in Patient with Metastatic Gastrointestinal Stromal Tumor: Treating a Case of Bleeding with Anticoagulation
Emily Bopp
- 46 Is There a Better Insulin Pump for Pregnancy?
Aditi Joshi
- 47 Identifying the Gap Between Clinical Exposure and Expected Knowledge in Oncology for Internal Medicine Residents
Jake Schwartz

Featured Noon Conference Presentations

Monday, May 19th

Identifying the Gap Between Clinical Exposure and Expected Knowledge in Oncology for Internal Medicine Residents

Jake Schwartz

Medical Education

Evaluating The Effect Of Respiratory And Hemodynamic Support During Critical Illness On Cognitive Function After Recovery

Meghan Hawthorne

Clinical Research

Adverse Outcomes in Patients with Inflammatory Bowel Disease on GLP-1 Receptor Agonist Therapy

Jonathan Weng

Clinical Research

Racial Differences in Prevalence, Screening, and Complications of Osteoporosis in Patients with Inflammatory Bowel Disease

Benjamin Hoffman

Clinical Research

Tuesday, May 20th

Featured Guest Speaker: Dr. Wendy McCallum

Wednesday, May 21st

Long-Duration Fluconazole Therapy May be Associated with Faster Time-to-Remission in Patients with Active Inflammatory Bowel Disease (IBD)

Sarah Chen

Clinical Research

Featured Noon Conference Presentations

"EKG of the Day": A Novel Teaching Approach for the Third Year Medicine Clerkship

Kathleen Oakes

Medical Education

Perceived Impact of As Needed vs. Routine Intravenous Fluids for Ambulatory GI Endoscopies Among Healthcare Professionals Following Hurricane Helene

Anderson Huang

Clinical Research

Contemporary Trends in Utilization and Safety of Catheter Ablation for Atrial Fibrillation in Patients with Heart Failure

Lauren Ehrhardt-Humbert

Clinical Research

Perioperative outcomes of as needed vs. routine intravenous fluids for patients receiving ambulatory GI endoscopies following Hurricane Helene

Asha Dash

Clinical Research

Thursday, May 22nd

Colonoscopy with Polypectomy in Patients with Cirrhosis: A Retrospective Review of Complications

Brian Yan

Clinical Research

Temporal Pattern of Emotions and Cognitive Load in Internal Medicine Residents through an Intern Rapid Response Simulation Curriculum

Katherine Goodspeed and Jordan Santiago

Medical Education

Curriculum Development for GI Rotation

Bowei Deng

Medical Education

Featured Grand Rounds Presentations

Friday, May 23rd at 12pm
Wolff Auditorium

Early Recognition of Cardiogenic Shock and Trajectory of CSWG-SCAI Stages Within the First 72 Hours

Kevin John

A bispecific integrin $\alpha 5\beta 1/\alpha v$ antibody induces immunologic control of basal-type prostate cancer cells

Jeffrey Lin

Temporal Trends in Sex-Related Risk of Cardiac Events in Children with Congenital Long-QT Syndrome

Ido Goldenberg

Comparing Apixaban with Warfarin for Therapeutic Anticoagulation in Left Ventricular Assist Devices

Cullen Soares

Thank You!
