Lowell General Hospital

Lowell General Hospital Accepted Insurance Plans

January 16, 2025

The insurance plans listed below are accepted by Lowell General Hospital and the clinicians of Tufts Medicine. There are many clinicians who perform services at Lowell General Hospital who are independent clinicians from the community. These clinicians may accept different insurances than our hospitals. To make sure your clinician accepts your insurance, please check with their office before you schedule an appointment.

It is recommended that you check with your health insurance company before any care:

- to verify your covered benefits
- to understand any cost sharing related to copays, coinsurance, deductibles
- to understand the different levels of cost share related to a tiered plan
- to understand any referral or prior authorization requirements

If your insurance plan is not listed below, please contact your insurance plan or employer to find out what coverage may be available to you.

Your Rights and Protections Against Surprise Medical Bills – [click here for more information](#).

This list of insurance plans and coverage details are subject to change, and may not be accurate at the time of viewing, despite regular updates made to this website. Patients and prospective patients should verify plan coverage directly with their clinician's office.
