Featured Grand Rounds Presentations

Poster Symposium Presentations

Listed by poster number

- 1 Impact of 72-Hour Cumulative Fluid Balance on Early Allograft Dysfunction After Liver Transplantation
Ki Jung Lee
- 2 Early Postoperative Fluid Accumulation and Its Impact on Critical Care Utilization and Length-of-Stay After Liver Transplantation
Ki Jung Lee
- 3 Osilodrostat for Ectopic Cushing's Syndrome: A Superior Off-Label Option After Failure of Other Therapies – A Case Report
Tala Abu Samaan
- 4 VIP Deficiency Increases Pro-fibrotic and Pro-inflammatory Biomarker Expression After World Trade Center Dust Exposure
Nicholas Favazza
- 5 Beyond Biofeedback: Expanding Perspectives on Pelvic Floor Physical Therapy for Evacuation Disorders
Mira Yang
- 6 Paging Dr. Progress: Digitizing the Night Float Handoff
Emily Grussing and Michelle Schafer
- 7 Improving Helicobacter pylori Treatment Adherence Through a Standardized Management Pathway: A Single-Center Quality Improvement Initiative
Asha Dash
- 8 Evaluation of an Urgent Outpatient Clinic Program to Reduce Emergency Healthcare Utilization for Ambulatory-Level Gastrointestinal Complaints
Mira Yang
- 9 Novel Marker of Effective Valsalva During Transthoracic Echocardiography in Patients with Hypertrophic Cardiomyopathy
Matthew Vollaro
- 10 Reassessing the predictive value of CAC for obstructive CAD in TAVR candidates
William Bradford
- 11 The Effect of Antifungal Therapy on Disease Activity in Patients with Inflammatory Bowel Disease: A Retrospective Matched Analysis
Sarah Chen

Poster Symposium Presentations

Listed by poster number

- 12 Upadacitinib Induces Clinical and Histological Remission in Biologic-Refractory Microscopic Colitis with Subtype Evolution
Rodolfo Valentini
- 13 Spinal Cord Infarct During Combined VA-ECMO and IABP Support in Cardiogenic Shock: A Case Report
Ying Loo
- 14 Impact of Right Heart Failure and Tricuspid Regurgitation on Outcomes in Hospitalized Patients with Decompensated Cirrhosis
Anderson Huang
- 15 Colonoscopy Complications in Patients With Cirrhosis: Risk Factors for Postpolypectomy Bleeding
Brian Yan
- 16 Post-Fragility Fracture Management Outcomes Following Implementation of a Fracture Liaison Service at Tufts Medical Center
Naira Blenheim
- 17 Reducing Inpatient Falls in High-Risk Patients: A Multidisciplinary Quality Improvement Initiative
Margaret Bayliss, Naira Blenheim, Emily Grussing, Rachelle Koch, William Evan Shaw, Madeline Stout, Amanda Woo, Cynthia Wu
- 18 Real World Prospective Validation of a Machine Learning-Enabled Automated Aortic Stenosis Detector
Daniel McGrath
- 19 Comparing Burden of Post-Intensive Care Syndrome in ICU Survivors Who Did and Did Not Receive ECMO Support
Cynthia Wu
- 20 Predictors of left atrial appendage emptying velocity: Derivation and validation of CHIRP3(M-1) score
Carine Tabak
- 21 Implementation of a Standard Protocol for Urine Sodium-Guided Diuresis
Amanda Moises
- 22 Improving Safety of Continuous Medications Through a Standardized "Hold" Function in Epic
Amanda Moises, Emily Goodwin, Christia Aspili, Jared Florio, Madeline Fuller, Thomas Johnson, Pedro Pinales, Lindsey Rae

Poster Symposium Presentations

Listed by poster number

- 23 Cocaine-Associated Cardiovascular Mortality in the United States Increased Significantly After 2010: A Nationwide Analysis (2000-2020)
Sarah Lubin
- 24 Real-World Safety and Efficacy of BCMA Bispecific Antibodies in Relapsed Light Chain Amyloidosis
Vasil Mico
- 25 Sacral Pressure Injury and Infection in Heart Transplant Recipients
Rachelle Koch
- 26 Severe Babesiosis Precipitating Cardiogenic Shock
Sarah Lubin
- 27 Complications of Catheter Ablation for Atrial Fibrillation Among BMI Categories
Sarah Lubin
- 28 Expanding Access to Kidney Transplantation: Impact of a Community-Based Outreach Clinic and Equity Initiative
Emily Jaffe
- 29 Heyde Syndrome Secondary to Bioprosthetic Aortic Valve Degeneration in a 56-Year-Old Woman: A Gastroenterology Perspective on Diagnosis, Endoscopic Management, and Post-TAVR surveillance
Tharidu Gunawardena
- 30 Trends in Utilization and Sex-Based Disparities in Leadless Pacemaker Implantation in the United States
Benjamin Katcher and Jenna Port
- 31 Recurrent Thoracic Endometriosis Syndrome
Thomas Johnson
- 32 Association Quilty Lesions on Endomyocardial Biopsy with Allograft Dysfunction and CAV
Sravya Shankara
- 33 Area of Basal 3-Chamber: A Novel Marker of Valsalva Imaging for Patients with Hypertrophic Cardiomyopathy
Nathan Sacks
- 34 A Retrospective Analysis of Plaque Brachytherapy (PBT) vs. Gamma-Knife Stereotactic Radiosurgery (GKSRS) as the First-Line Treatment of Localized Uveal Melanoma
Timothy Marquis

Poster Symposium Presentations

Listed by poster number

- 35 Diagnostic Stewardship of Urine Testing Through Clinical Decision Support: An Interrupted Time Series Analysis
Mario Valdez Imbert
- 36 The Utility of Follow-Up Blood Cultures in Gram-Negative Bacteremia
James Kuo, Eric Dai and Thomas Risoleo
- 37 Impact of Televisit-Based Diabetes Management on Glycemic Control and Medication Optimization Using Continuous Glucose Monitoring
Aditi Joshi

Featured Noon Conference Presentations

Monday, May 11th

Complications of Catheter Ablation for Atrial Fibrillation Among BMI Categories

Sarah Lubin and Jenna Port

Clinical Research

Does Fluid Overload Harm the Liver Graft? Impact of 72-Hour Cumulative Fluid Balance on Early Allograft Dysfunction

Ki Jung Lee

Clinical Research

Post-Fragility Fracture Management Outcomes Following Implementation of a Fracture Liaison Service at Tufts Medical Center

Naira Blenheim

QI/Patient Safety

Comparing Burden of Post-Intensive Care Syndrome in ICU Survivors Who Did and Did Not Receive ECMO Support

Cynthia Wu

Clinical Research

Reassessing the predictive value of CAC for obstructive CAD in TAVR candidates

William Bradford

Clinical Research

Tuesday, May 12th

Featured Guest Speaker: *Dr. Benjamin S. Wessler*

Wednesday, May 13th

Novel Markers of Effective LVOT Provocation During Transthoracic Echocardiography in Patients with Hypertrophic Cardiomyopathy

Matthew Vollaro and Nathan Sacks

Clinical Research

Featured Noon Conference Presentations

Impact of Right Heart Failure and Tricuspid Regurgitation on Outcomes in Hospitalized Patients with Decompensated Cirrhosis

Anderson Huang

Clinical Research

Sacral Pressure Injury and Infection in Heart Transplant Recipients

Rachelle Koch

Clinical Research

Paging Dr. Progress: Digitizing the Night Float Handoff

Emily Grussing and Michelle Schafer

QI/Patient Safety

Association of Left Bundle Branch Lesions on Endomyocardial Biopsy with Allograft Dysfunction and CAV

Sravva Shankara

Clinical Research

Thursday, May 14th

Standardizing Inpatient Inflammatory Bowel Disease Flare Management: A Triage-Based Educational Intervention

Ki Jung Lee

Medical Education

EKG of the Day: A Novel EKG Teaching Approach for the Third Year Medicine Clerkship

Kathleen Oakes

Medical Education

High Value Care: A Comprehensive Curriculum to Build Awareness and Change Practice

Abdullah Khalid and Alexander Sugerman

Medical Education

Featured Grand Rounds Presentations

Friday, May 15th at 12pm
Wolff Auditorium

Real-World Safety and Efficacy of BCMA Bispecific Antibodies in
Relapsed Light Chain Amyloidosis
Vasil Mico

Association Between Serum Adiponectin and Risk of Incident
Hypertension: The REGARDS Study
Aneesh Singal

The Use of Terlipressin is Associated with Lower Mortality and Liver-
Related Complication Events Compared to the Use of Norepinephrine in
Patients with Decompensated Cirrhosis: A Multinational Analysis
Christina Lee

The Association Between Pulmonary Hypertension and Kidney Failure
with Replacement Therapy: An Analysis of the Chronic Renal
Insufficiency Cohort Study (CRIC)
Marcelle Tuttle

Thank You!
